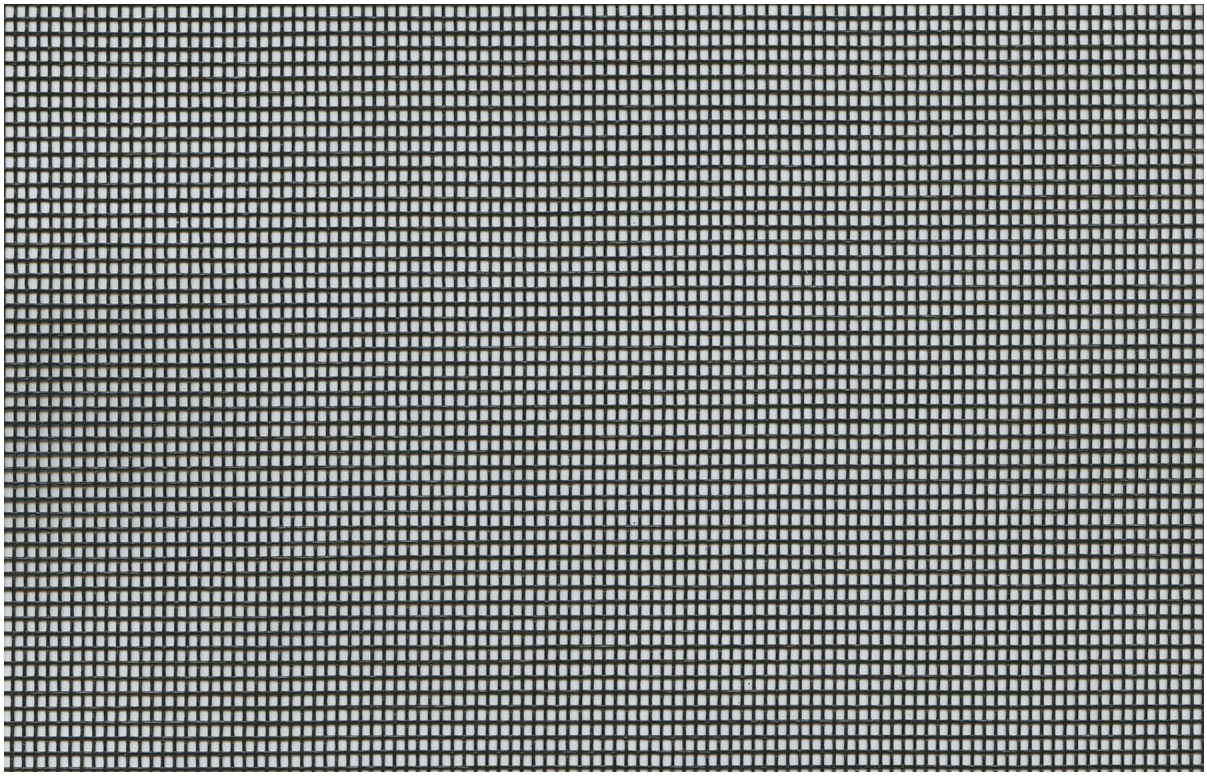
Extra Strength Screen

BY PHIFER



Charcoal

Extra Strength Screen is stronger than traditional insect screening. Constructed of durable, vinyl-coated fiberglass, it resists tears and punctures which makes it a better choice for high-traffic areas. Extra Strength Screen can be used in windows, doors and porches and provides excellent outward visibility.

- Improved strength over standard fiberglass window and door screen
- Ideal for use in high-traffic areas
- GREENGUARD Gold Certified

PRODUCT CERTIFIED FOR
