

SheerWeave

BRAND FABRIC

INFINITYTM₂

Sustainable Window Treatment Fabric

Eco-friendly SheerWeave Infinity₂ is PVC-free and 100 percent recyclable. SheerWeave Infinity₂ starts with the only core yarn, synthetic or natural, that is born out of post-industrial waste by-product. Emulating the look and engineering of standard SheerWeave fabrics, Infinity₂'s yarn coating is developed from the same compound family as its core yarn. Like its SheerWeave predecessors, Infinity₂ provides the same solar heat and glare control properties that have elevated window treatments from mere decoration to high performance tools for conserving energy, harnessing natural light and maintaining interior comfort levels.

- SheerWeave Infinity₂ composition: 100% TPO (Thermoplastic Olefin), 20% TPO fiber yarn / 80% TPO coating on TPO yarn
- 100% recyclable with active Reclamation Program that captures scrap from post-industrial (pre-consumer) and post-consumer sources
- Produced from 100% post-industrial (pre-consumer) recycled content
- Repeat recyclability for continued sustainability
- PVC-free
- Lead-free
- GREENGUARD Certified, GREENGUARD Children and Schools Certified and GREENGUARD Select Certified for Commercial, Healthcare and Education
- Every component of this TPO compound is heat and chemically stable.
- Nine neutral colors
- Offered in both 3% and 5% open basketweave construction
- Width options: 63" (160cm) and 98" (249cm)
- Flame retardant: ASTM E-84 (Class I), NFPA 701-2004 TM#1 (small scale), NFPA 101 (Class A Rating) and CAN/ULC-S109-03 Large
- Resistant to microbial and fungal growth
- Durable and washable
- Excellent solar heat control, UV and glare reduction capabilities
- This product carries a 5-Year Limited Warranty.
