PHIFER®
INSECT SCREENING

Having Trouble Deciding What Screen to Buy?

The screening quiz offered by Phifer is an interactive tool designed to help you choose the best screen for your specific needs. The quiz guides you through a series of questions that assess what you are looking for in a screen, whether it's for a window, door, porch, or other applications. You can narrow down the options based on various factors such as your need for insect protection, durability and visibility as well as climate.

Once you complete the quiz, you receive recommendations tailored to your selections. This can simplify the decision-making process and help ensure you choose the most suitable product for your project.

To take the quiz, you can go to phifer.com or scan the QR code below.

Screening Quiz

Where will the screen be used?

Door | Pool Cage or Pool Enclosure | Screen Porch or Patio | Window
